# WHAT WE WILL LEARN

- ▣ Meaning of teaching
- ▣ Nature of teaching
- ▣ Teaching -learning process

# MEANING OF TEACHING

- ▣ Teaching is to impart knowledge, develop understanding and skills.
- ▣ In narrow sense it is associated with 3Rs'- reading, writing and arithmetic
- ▣ However in wider sense, it implies-7Rs'- reading, writing, arithmetic, rights responsibilities, relationships and recreation.

# MEANING OF TEACHING(Contd..)

- ▣ Teaching is a relationship which is established among three focal points in education-the teacher, the students and the subject matter.
- ▣ It is a very complex art of guiding students through a variety of selected experiences towards the attainment of appropriate teaching learning goals
- ▣ *Teaching is a triadic relation and tripolar process involving the source of teaching (human or material), student and a set of activities designed and manipulated primarily to bring changes in the behaviour of the students.*

# DEFINITIONS OF TEACHING

- ▣ According to H. C. Morrison, “teaching is an intimate contact between a more mature personality and less mature one which is design to further the education of a situation.”
- ▣ Thomas P green defines, “Teaching is the task of a teacher which is performed for the development of a child.”
- ▣ Amidon and Hunter (1967): “Teaching is an interactive process, primarily involving classroom talk, which takes place between teacher and pupils and occurs during certain definable activities” .

# NATURE OF TEACHING

- ▣ Complex social process
- ▣ Both conscious and unconscious
- ▣ Formal as well as informal
- ▣ Relation between three focal points
- ▣ Help in adjustment of the child
- ▣ Skilled occupation
- ▣ Both art and science
- ▣ Teaching is guidance
- ▣ Training of emotions

# TEACHING-LEARNING PROCESS

- ▣ The acquisition of knowledge, skills and attitudes which enables us to adjust ourselves in an effective manner to the environment may be said to be the aim of teaching-learning.
- ▣ Teaching-learning process is a mean whereby society trains its young ones in a selected environment (the school) as quickly as possible to adjust themselves to the world in which they live.

# TEACHING LEARNING PROCESS (Contd..)

- ▣ Teaching-learning process implies that all the various elements of the teaching-learning situation have to be brought into an intelligible whole.
- ▣ Teaching learning is influence by the totality of the situation. Teaching learning is fruitful and permanent if the total situation is related to the life situations.

# NATURE OF TEACHING LEARNING PROCESS

- ▣ Acquisition of knowledge, skills and attitudes
- ▣ means to train adjust themselves to the world in which they live.
- ▣ Teaching-learning has four aspects: teacher, students, learning process and learning situation.
- ▣ a means through which the teacher, learner, the curriculum and other variable are organised in a systematic manner to attain pre-determined goals and objectives.

# NATURE OF TEACHING LEARNING PROCESS

- ▣ Teaching learning include learners and their individual differences, the methods of teaching, the material to be taught, classroom conditions, teaching devices and aids, questioning and answering, assignments.
- ▣ It also includes thinking, enjoying, creating, practical skills, etc
