What we will learn

- Meaning of learning
 - Factors affecting learning
- 

Meaning of learning

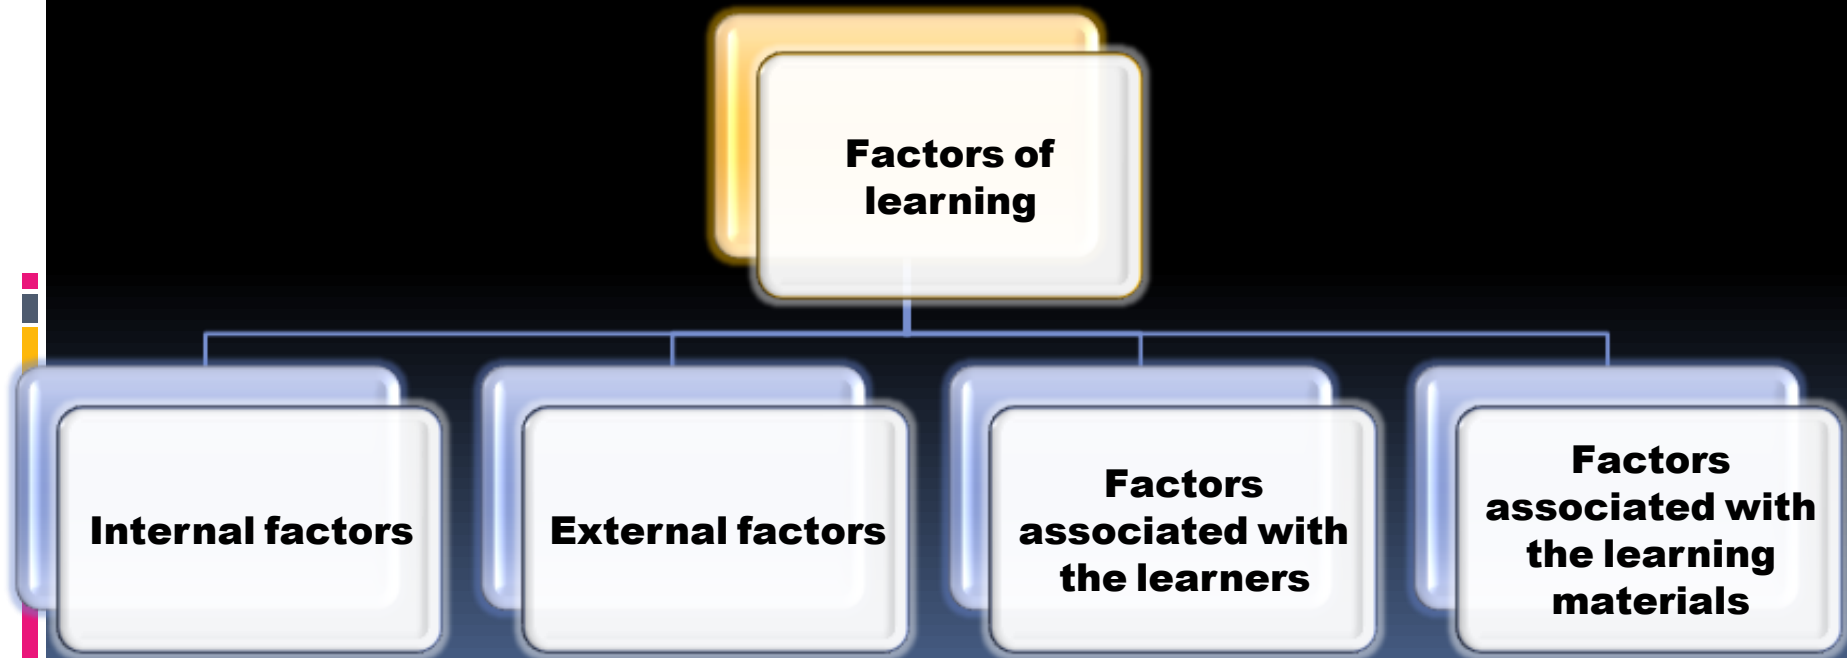

- Learning may be described as the process of modification of man's behaviour in his environment
- It finds expression through such constant change, modification and improvement.
- it is an ongoing process of our life

Definitions

- **E.A Gates** defines, ‘Learning is the modification of behaviour through experiences and training.’
- **According to R.S Woodworth**, “ any activity can be called learning so far it develops the individual(in any respect, good or bad) and makes his behaviour and experiences different from what that otherwise have been”

Factors affecting learning

- Learning is affected by several factors- these factors can be categories into the following types-

Internal factors

- Goals
- Motivation
- Interest
- Attention
- Practice
- Mental fatigue
- Learning by doing
- Emotional conditional
- Age
- Rest

External factors

- Hereditary endowment
- Physical condition
- Home influence
- school

Factors associated with learner

- Motivation
- Readiness and will power
- Ability of the learner
- Level of aspiration and achievement
- Attention
- General health condition of the learner
- Maturation of the learner

Factors related to learning material

- Methods of learning
- Part vs whole methods
- Rhythmic learning
- Knowledge of result
- Good physical atmosphere

Thank you
